

HYDRAULIC BOLT TENSIONING

Hand Pump Range

Boltight supplies a wide range of hand pumps that covers all operating pressures from 700 bar to 2500 bar.

These pumps can be used with all Boltight tooling and equipment.

Each pump has both high and low pressure pistons and is supplied with an integral pressure gauge (63 mm to 110 mm), pressure release valve, internal pressure safety relief valve, 300 cc to 2.4 litre usable oil reservoir and a self sealing quick connect coupling .

Pressure gauges are available graduated in dual scale bar / psi or single scale Mpa.

All hand pumps meet the requirements of the European Pressure Equipment Directive and are CE marked.

A every hand pump carries a unique serial number and is supplied with a pressure test and pressure gauge calibration certificate.

These pumps are available from stock along with a wide range of suitable hoses and fittings.
