

## HYDRAULIC BOLT TENSIONING

### Colour Coded Tools and Equipment

All Boltight tooling and equipment is colour coded to indicate the maximum working pressure.

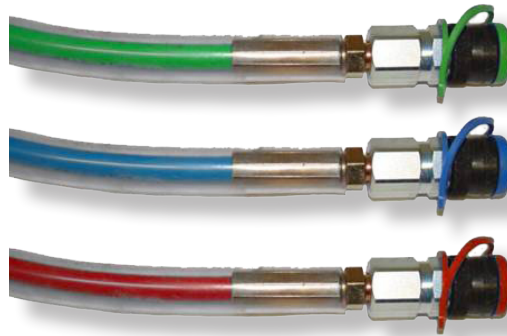

Colour Code	Max. Working Pressure
GREEN	1000 bar
BLUE	1500 bar
RED	2500 bar

The colour coding takes the following forms :-

#### Pumps

The tubular steel carrying frames are painted according to the code.

#### Hoses

The hoses are plastic coated and the quick connectors are fitted with plastic dust covers. Both are coloured

#### Tools

The tool labels and the quick connector, plastic dust covers, are

**BOLTIGHT®**
