

## HYDRAULIC BOLT TENSIONING

### 2500 bar Tee Blocks and other assemblies

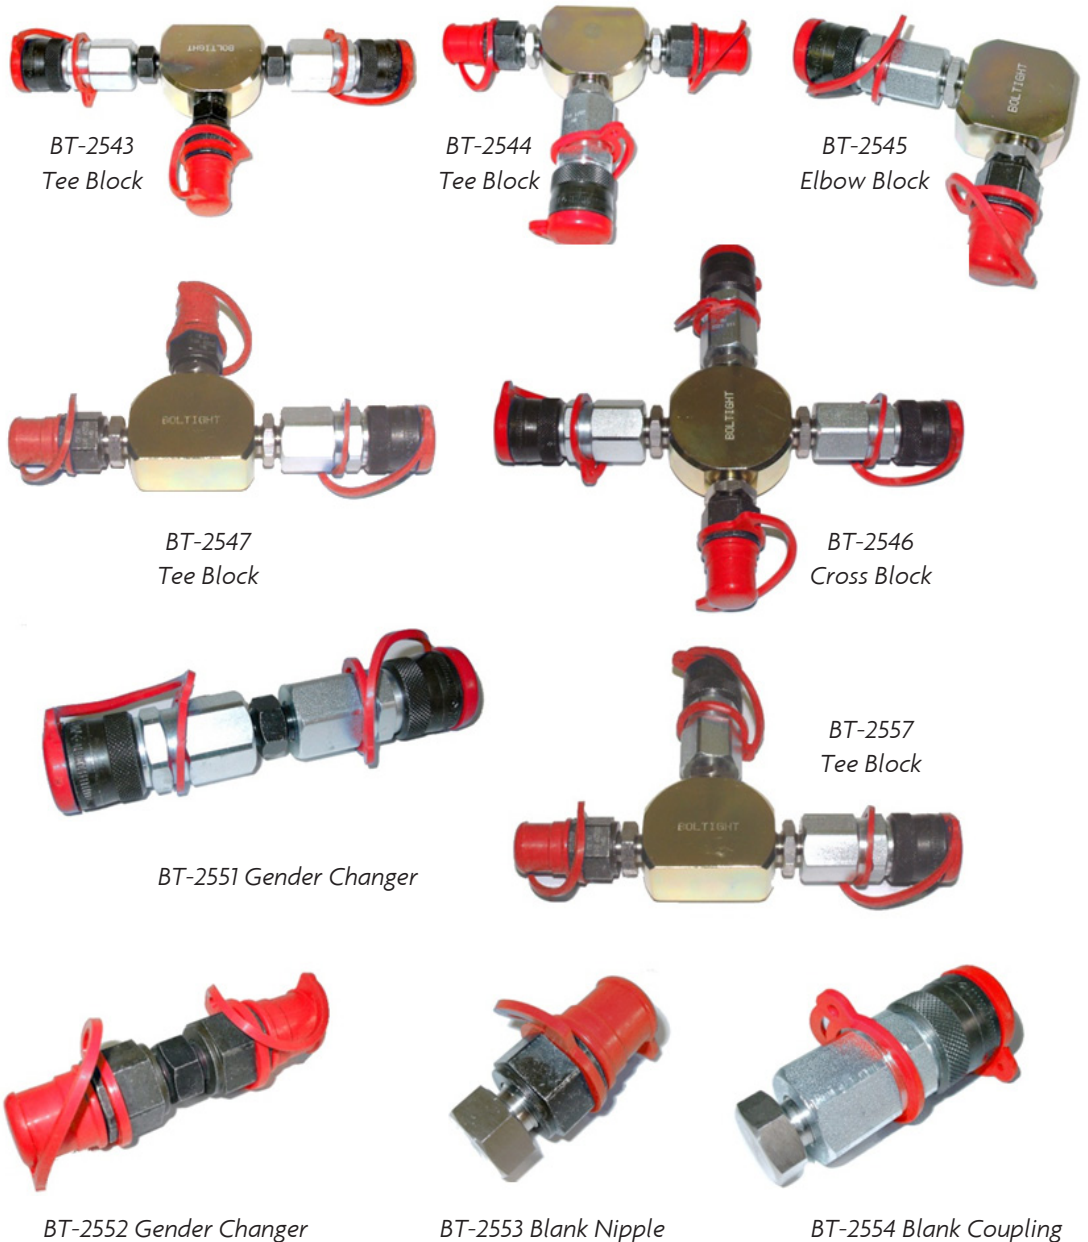

These 2500 bar working pressure assemblies are designed for use with all Boltight 2000 bar and 2500 bar system tooling, pumps and hose. They are delivered fully assembled with self sealing quick connect couplings for fast and clean operation. The quick connectors are fitted with RED colour coded dust covers.

Each assembly is filled with oil and pressure tested prior to despatch. Test certificates are supplied. All assemblies are marked with serial numbers for identification. These assemblies

meet with the requirements of the European Pressure Equipment Directive and are CE Marked.

Boltight Ltd also manufactures bolt tensioning equipment, pumps hoses and assemblies for 1000 bar, 1500 bar and 2000 bar operating pressures. Contact us for details.

Special assemblies can be made to your specified requirements. Please send details of your requirements for a fast response.
